ABOUT ACADIAN STURGEON and CAVIAR INC.

Acadian Sturgeon and Caviar Inc. was incorporated in March 2005 and began our mission to produce sturgeon and caviar from the two local Canadian East Coast sturgeon species: Atlantic and Shortnose Sturgeon. Since 2008, we have processed wild Atlantic Sturgeon meat and caviar in a new state-of-the-art CFIA-inspected processing plant in Carters Point, NB, certified sustainable by Ocean Wise Life.

We also produce all sturgeon products and by-products, such as smoked sturgeon, loins, fillets, cartilage and bone marrow, skins, heads etc.
