

# Millennia TEA<sup>®</sup>

## Superfood Tea Cubes

### WHY CHOOSE MILLENNIA TEA PRODUCTS?

Millennia TEA is a category-creating innovation in functional nutrition. Working with small-scale organic farmers in Sri Lanka, the Canadian company is flipping the traditional tea-making model on its head. Instead of drying and cooking the leaves like conventional green tea and matcha, Millennia washes and flash-freezes fresh tea leaves in a patented process that maximizes the nutritional components of this medicinal plant.

Millennia Tea can be consumed as a fresh-tasting hot tea for sure ... More exciting though, their frozen superfood cubes are something to toss in your morning smoothie or shake for a boost of clean energy, antioxidants and a sense of focus you can actually FEEL ... with none of that strong taste you get from matcha or greens powders.

### ORDER INFORMATION

Minimum order requirement of 2 cases, with a turnaround time of 2 weeks. Payment terms: Net 30.
